WE MOVE FORWARD IN FAITH

September 2026

Friends in Christ,

For many years, the people of St. Elizabeth Seton have looked forward with hope to the continued growth of our parish home. Through the generosity and sacrifice of those who came before us, important steps have already been taken. Now we have the opportunity—and the responsibility—to build upon that foundation.

Our proposed parish hall is about much more than adding square footage. It is about creating a place where our parish family can gather: where children can learn the faith, families can grow in friendship, parishioners can share meals and celebrations, and our community can welcome others into the life of the Church. In short, it is about providing the space necessary for the parish life we already have to flourish and for future generations to build upon it.

A project of this size requires sacrifice, but that is how every generation of Catholics has built something worth handing on. We have inherited much through the faith and generosity of others. Now it is our turn to provide for those who will come after us.

I ask you to prayerfully consider how you can be a part of this next chapter in the life of St. Elizabeth Seton. May the Lord bless our efforts and, above all, make everything we undertake serve the building up of His Church.

In Christ,

Fr. Nicholas Stark
Pastor
